New York Life Workplace Benefits

- ¹ This program is not intended to be subject to the Employee Retirement Income Security Act of 1974 (ERISA). The employer does not contribute to or endorse the program. Employee participation is completely voluntary.
- ² \$5,000 but not less than \$15 per month for Employee or Spouse, \$5 per month for Child and Grandchild.
- ³ Maximum face amount on a spouse in New York is \$25,000.
- ⁴ A policy's cash value may be accessed via policy loans and/or partial surrenders. Policy loans accrue interest at a variable loan interest rate and reduce the total cash value and total death benefit by the amount of the outstanding loan and accrued loan interest.
- ⁵ Age refers to base insured, not age of children. The issue age limits for the spouse are up to insurance age 50, but not more than 10 years older than the base insured, and up to actual age 18 for children.
- ⁶ The policy owner needs to allocate a minimum of \$20,000 and cannot allocate more than \$95,000 for their Chronic Care Rider Benefit Pool across all New York Life Employee's Whole Life policies with the Chronic Care Rider. The policy owner also needs to ensure that at least a \$5,000 death benefit will remain after CCR benefits are paid. Paid-Up additions, term riders, and the Accelerated Death Benefit rider are not eligible to be accelerated. Once the insured is certified as chronically ill as described in the policy, and meets the 90 day elimination period, the policy owner will begin receiving an unrestricted cash benefit, with no receipts or plan of care needed. The primary purpose of life insurance policies is death benefit protection and cash value accumulation, with certain riders available at a cost that provide the client with additional policy features, such as additional protection for future chronic illness expenses. This rider should be used for the primary purpose of accelerating a portion of the policy base face amount in case the insured becomes chronically ill. **This is a life insurance rider providing for an accelerated payment of the base policy face amount in the event that you are certified chronically ill as described in the policy.**
- This rider is not intended to be a federally tax-qualified long-term care insurance contract under Internal Revenue Code (IRC) Section 7702B. Therefore, the premiums payable for this rider do not qualify as long-term care insurance premiums and are not deductible from gross income for federal income tax purposes. This rider, however, is subject to the federal per diem limits set forth in IRC Section 7702B. Under this rider, New York Life will not pay clients more than the federal per diem limits. If the benefit option elected exceeds the current IRC per diem limits, the benefit period will be extended accordingly. Assuming the amount you receive in the aggregate from all applicable policies does not exceed the federal per diem limits set forth in IRC Section 7702B, the benefits provided by the Chronic Care Rider are intended to be excludable from federal gross income under Section 101 (g) of the IRC.
- Receipt of an accelerated death benefit may affect client eligibility for Medicaid or other government benefits or entitlements and may have income tax consequences. Accelerating benefits before applying for these programs, or while you are receiving government benefits, may affect your initial or continued eligibility. Clients can contact the appropriate social service agency (e.g., the Medicaid Unit of your local Department of Public Welfare or the Social Security Administration Office) for more information.
- ⁷ The Living Benefits Rider will be available on all policies regardless of the amount of coverage elected.
- ⁸ State variations exist. There is a cost to exercise this rider.
